

SOFTWARE DEVELOPMENT COMPANY

Software development & engineering, hardware supplier & installation, system networking & database management

Tel: [+2349012120128](tel:+2349012120128), +2348102574906, +2348037877979.

At **Caresuite** we are aware that creating client-oriented software takes a mixture of technical excellence and clear communication and our firm hires only the very best to ensure you receive both. We know that every client is unique and we strive to deliver an individual, innovative and affordable solution every time, and to follow it through with an outstanding delivery which is both on time and within budget.

We provide digital software systems and IT support to meet the needs of your business. We handle the integration, and ensure that all of your systems work together seamlessly. We also provide ongoing maintenance and can help with any problems that arise, no matter how big or small.

We've helped companies of all sizes design and develop software that will allow their business to be more functional. Many of our clients have been with us for years, our service continues to surpass our competitors.

We also pride ourselves on our after-sales client-care including our guarantees, staff-training and onsite and offsite support.

Finally, we realize that you are very busy and wanted to thank you in advance for your time spent reviewing our proposal.

Installation plans.

In bid to make our solution accessible all not minding the size of your organization, **I-invest** took it upon herself to split our installation plan into 3 different categories whereby our client can easily choose the most convenient installation plan that best suites its organization.

- i. **Local hosting:** This is the deployment of our software solution to our client local machine, which can be accessed within the hospital/organization premises only. To run this installation, listed below are tools needed for the successful running of the software solution for your organization.
